

DR. STEVEN STEMLER
207 High Street; Middletown, CT 06459
steven.stemler@wesleyan.edu; (860) 685-2207

PROFESSIONAL APPOINTMENTS

- 07/05–present *Assistant Professor, Wesleyan University, Department of Psychology*
- 12/02–present *Teaching Faculty, Framingham State College, International Educational Programs*
- 06/03–06/05 *Associate Research Scientist, Yale University, Department of Psychology*
- 01/03–06/05 *Assistant Director, Yale University PACE Center.* Responsible for handling all grants submitted by the PACE Center, monitoring spending on all currently funded grants, collaborating on grant proposals, collaborating on all hiring decisions, and working with visiting scholars.
- 01/02–12/02 *Deputy Assistant Director, Yale University PACE Center.* Responsible for helping to develop budgets and ensure that all guidelines are met for grants submitted by the PACE Center, collaborating on grant proposals, collaborating on all hiring decisions, and working with visiting scholars.
- 09/01–05/03 *Visiting Instructor, Framingham State College, Department of Graduate and Continuing Ed.*

EDUCATION

- | | | |
|-----------|---|-------------------|
| 2001–2003 | <i>Yale University</i>
Postdoctoral Associate, Psychology
Advisor: Dr. Robert J. Sternberg | New Haven, CT |
| 2001 | <i>Boston College</i>
Ph.D., Educational Research, Measurement, and Evaluation
Advisor: Dr. Ina V.S. Mullis | Chestnut Hill, MA |
| 1997 | <i>Boston College</i>
M.Ed., Educational Research, Measurement, and Evaluation | Chestnut Hill, MA |
| 1996 | <i>University of Washington</i>
B.S., Psychology | Seattle, WA |

ADVANCED EDUCATIONAL TRAINING

- 6/03 *APA Advanced Training Institute in Longitudinal Methods, University of Virginia*
Selected to participate in an American Psychological Association program working with nationally renowned professionals in the field of longitudinal methods.
- 6/97 *NSF Institute on Evaluation, The Evaluation Center, Western Michigan University*
Selected as one of 18 scholars to participate in a National Science Foundation program (Project MTS) working with nationally renowned professionals in the field of program evaluation to develop broader approaches to program evaluation with a special emphasis on integrating and evaluating the use of technology.

AWARDS

- Pass with Distinction Award* for exceptional performance on the doctoral comprehensive exam in Educational Research, Measurement, and Evaluation (2/00).
- StudyWeb Excellence Award* for outstanding educational website (<http://www.csteep.bc.edu/ctest>) (7/99).

FUNDED RESEARCH

Award Amount: \$104,797

PIs: Steven Stemler and Cynthia Matthew

6/1/07-5/31/08

Funding Agency: Army Research Institute

Title: Exploring Pattern Recognition as a Predictor of Mental Flexibility

Summary: The objective of this research proposal is to demonstrate that pattern recognition is a basic cognitive process that gives rise to mental flexibility across a variety of domains. We will use a recently developed mental flexibility test battery to test the hypotheses that: i) pattern recognition, operationalized using multiple measures including non-visual measures (decision-making and social judgment), will be a stronger and more significant predictor of mental flexibility than will traditional measures of flexible or fluid cognitive processes; ii) measures of pattern recognition will mediate the relation between accepted measures of fluid cognitive processing and mental flexibility; iii) measures of pattern recognition will be weakly related to measures of analytic cognitive processing, and iv) measures of pattern recognition in the social domain will predict mental flexibility in social judgment.

Role: Co-Principal Investigator

Award Amount: \$350,000

PIs: Robert Sternberg, Steven Stemler, and Elena Grigorenko

4/1/05-9/30/07

Funding Agency: National Science Foundation

Title: Using the Theory of Successful Intelligence as a Framework for Developing Assessments in AP Physics

Summary: The aim of the proposed research project is to create a set of augmented, theory-driven examinations that expand the range of cognitive skills assessed and to examine the impact of this approach on student achievement. We will use the College Board's Advanced Placement (AP) program in Physics as a testing ground for the project. The augmented exams will be based explicitly on Sternberg's construct-validated theory of cognitive processing skills. Specifically, we propose to investigate: (1) individual differences and group differences in cognitive processing skills, (2) ethnic differences in student achievement on the augmented exams, and (3) the comparative validity overall and across ethnic groups of using cognitive subscale scores to predict course grades.

Role: Co-Principal Investigator (Note: When I came to Wesleyan in July '05, my role changed to project consultant)

Award Amount: \$1,500

PI: Steven Stemler

9/1/06-12/31/06

Funding Agency: Wesleyan University Project Grant

Title: Social Identity and Interpersonal Conflict Resolution

Summary: The proposed study is a pre-study within the context of a larger research program designed to examine the relationship between social identity and interpersonal conflict. The ultimate objective of this research program is to examine the psychometric properties of a newly develop survey instrument capable of measuring the social identities that are most important to Wesleyan students (e.g., ethnicity, gender, place of residence). Participants will be asked to categorize themselves within each social identity group (e.g., White male, living at 200 Church Street) and will then rate the extent to which they affiliate with members of their own and other identity groups. The goal is to assess the extent to which students show (1) ingroup favoritism; (2) outgroup hate, (3) both, (4) neither. We will then administer a situational judgment test describing a conflict between two individuals and ask participants to assign a level of blame of each individual for the conflict. The identities of the individuals described in the scenario will be systematically varied to either match or deviate from the participant's most important reported social identity.

Role: Principal Investigator

Award Amount: \$175,000

PI: Elena Grigorenko

10/1/03-9/30/05

Funding Agency: National Institutes of Health (NIH)

Title: Epidemiological Survey of Learning Disabilities in Zambia

Summary: Zambian children demonstrate some of the lowest levels of achievement in any African country. Although the major cause of this depressed performance is attributable to the weaknesses of the educational system in Zambia, another factor of great importance is that the Zambian school system does not have the capacity to diagnose and address the needs of children with non-specific and specific learning disabilities. Our work intends to provide estimates of prevalence of non-specific and specific learning disabilities among Zambian school-aged children and investigate, in a pilot fashion, various etiologies of learning disabilities.

Role: Investigator

Award Amount: \$495,927 **PIs:** Robert Sternberg and Elena Grigorenko

1/1/01-12/31/05

Funding Agency: Temple University (U.S. Department of Education, IES, prime)

Title: The Value of the Theory of Successful Intelligence for Predicting the Effectiveness of Schools as Intelligent Systems

Summary: The goal of this project is to examine the emerging properties of schools that are "successfully intelligent" as a system, over and beyond the successful intelligence of, say, the faculty or the students looked at from an individual perspective. The project also aims to explore and empirically validate Sternberg's (2000) theory of school modifiability (e.g., how willing schools will be to adapt to new educational policies). The mineralogical theory suggests that there are eight different profiles of schools based on the extent to which the school: (1) is truly committed to change; (2) is interested in the appearance of change, and (3) believes that it has the power to change. Finally, we will examine whether effective teachers are better able than less effective teachers to adapt their strategies for responding to practical situations depending upon the situational context.

Role: Project Director

RESEARCH EXPERIENCE

- 9/01–9/05 **Center for the Psychology of Abilities, Competencies, and Expertise, Yale University**
Project Director, Understanding Schools as Intelligent Systems. Responsible for coordinating the development of measures of teachers' tacit knowledge and measures of schools as intelligent systems, conducting phone interviews with teachers and administrators, supervising project team in the recruitment of project participants and the process of data collection, developing strategies for recruiting project participants, constructing a database tracking system to monitor contact with teachers, principals, and district officials nationwide, and performing statistical analyses and research reporting (9/01-9/05).
Interim Project Director, Teaching for Wisdom. Responsible for working on the development of reliable and valid techniques for assessing the construct of wisdom as defined by Sternberg's Balance Theory of Wisdom (1/02-7/02).
- 8/99–8/01 **TIMSS International Study Center, Boston College**
Research Associate, Third International Mathematics and Science Study (TIMSS). Co-edited and contributed to Technical Reports documenting the design and implementation of TIMSS 1999 at the international and national levels. Conducted a number of secondary analyses of the TIMSS 1995 data, including explorations of gender differences in achievement and differences in school effectiveness.
- 9/96–7/99 **Center for the Study of Testing, Evaluation, and Educational Policy, Boston College**
Research Assistant, National Board on Educational Testing and Public Policy. Developed a policy analysis of affirmative action. Constructed and maintained a Filemaker Pro database used to track the reporting of test score use in the U.S. media. Initiated a content analysis study of college admissions literature to detect various presentations of testing and diversity issues (9/98-7/99).
Research Assistant, Consortium for Equity in Standards and Testing (CTEST). Co-developed and edited a website devoted to exploring how educational standards, assessments, and tests could be used more fairly: <http://www.csteep.bc.edu/ctest> (1/97-8/98).
Research Assistant, Scanning Services Center. Consulted with various university professors on survey and test construction. Performed data analysis and interpretation of test/survey results (9/96-5/97).
- 10/97–12/98 **Massachusetts Advocacy Center, Boston**
Evaluation Associate. Performed analyses using Stanford 9 Achievement Test data from Boston Public Schools aimed at predicting the number of minority students who would be retained in Boston in light of policy changes calling for the development of a high-stakes testing program.

Invited presentations

Stemler, S.E. (November, 2004). *Seven practical strategies teachers use when dealing with others*. Invited presentation given at the Abilities and Expertise Seminar. Yale University, Department of Psychology.

Stemler, S.E. (September, 2004). *Building a research culture: The PACE Center at Yale*. Invited presentation given to the Department of Education: University of Durham, UK.

Stemler, S.E. (March, 2003). *Enhancing the construct validity of Advanced Placement examinations in Psychology*. Invited presentation given at the Abilities and Expertise Seminar: Yale University, Department of Psychology.

Stemler, S.E. (July, 2002). *Understanding schools as intelligent systems*. Invited presentation given at the annual meeting of the Appalachian Intermediate Unit 8 Leadership Academy. College Station, PA.

Stemler, S.E. (March, 2002). *Fumbling towards equity: An investigation into the factors associated with school effectiveness internationally*. Invited presentation given at the Abilities and Expertise Seminar: Yale University, Department of Psychology.

Jordan, J., & Stemler, S.E. (March, 2002). *Teaching for wisdom: A program for schools*. Invited presentation given at the annual conference on Gifted Education, sponsored by college-gifted programs. Fairfield University: Fairfield, CT.

Stemler, S.E. (May, 2001). *Exploring the potential uses of the TIMSS 1999 database*. Invited presentation given at the TIMSS 1999 Benchmarking Database Training Session: Potomac, MD.

Stemler, S.E. (April, 2001). *Demystifying the data from TIMSS 1999*. Keynote address presented at the annual meeting of the Eisenhower Consortium Association on Research for Better Schools: Cherry Hill, NJ.

Stemler, S.E. (April, 2001). *Benchmarking to the world in mathematics and science*. Invited presentation given at the annual meeting of the Eisenhower Consortium Association on Research for Better Schools: Cherry Hill, NJ.

Stemler, S.E., & Henderson, S. (August, 1998). *Interpreting the results of the Massachusetts Teacher Test*. Invited presentation given to the staff members of the Education Committee of the Massachusetts House of Representatives: Boston, MA.

Shasby, K., Stemler, S.E., Horn, C., & Bebell, D. (November, 1998). *Interpreting standardized test results*. Invited presentation given to the Brookline Parents Association: Brookline, MA.

Poster Presentations

Kahn, R., Berchin-Weiss, J., & Stemler, S.E. (July, 2007). *Enhancing parent participation in early intervention by using tools for mediated learning*. Poster presented at the XI biennial meeting of the International Association for Cognitive Education and Psychology. Knoxville, TN, USA.

TEACHING EXPERIENCE

9/05-present **Wesleyan University, Department of Psychology**
Assistant Professor, (a) Foundations of Contemporary Psychology, (b) Psychological Measurement, (c) Introductory Statistics, (d) Psychology of Conflict Resolution. Responsible for course development, instructional delivery, assessment of student performance, and supervision of graduate and undergraduate teaching assistants.

12/02-present **Framingham State College, International Education Program.**
Faculty, Research and Evaluation Methodology. Responsible for delivering onsite instruction in Research and Evaluation Methodology to K-12 teachers and administrators working in overseas schools (e.g., Dominican Republic, Costa Rica) and pursuing their Masters degree in Education.

- 9/01–5/03 **Framingham State College, Division of Graduate and Continuing Education**
Visiting Instructor, Research and Evaluation. Developed the curriculum, conducted interactive and asynchronous lessons, and evaluated student performance for this online, graduate level course.
- 1/00–5/01 **Boston College, Lynch School of Education**
Teaching Assistant, Large-Scale Assessment and Quantitative Data Collection Procedures. Co-develop syllabus, graded papers, and taught various sessions of this graduate level course (with Prof. Ina V.S. Mullis) (1/00–5/00 and 1/01–5/01).
Teaching Assistant, Classroom Assessment. Co-develop syllabus, graded papers, and taught various sessions of this undergraduate level course (with Prof. Ina V.S. Mullis) (9/00–12/00).

CONSULTING EXPERIENCE

Research Organizations

- Assessment Consultant, Yale University PACE Center.* Coordinated item development, item review, and statistical analyses of data (n~1,500) for a project aimed at creating new versions of Advanced Placement Physics examinations employing Sternberg’s triarchic theory of intelligence (8/05-present).
- Assessment Consultant, Successful Intelligence, LLC.* Coordinated item development, item review, and statistical analyses of data (n~2,000) for a project aimed at creating new versions of Advanced Placement Psychology and Statistics examinations employing Sternberg’s triarchic theory of intelligence (10/01-9/04).
- Consultant in Policy and Planning, Massachusetts Board of Higher Education.* Worked with representatives from community colleges, state colleges, and state university branches to identify data analysis needs. Developed and authored a Technical Report to accompany the Higher Education Institutional Research System (HEIRS). Performed institutional research using the Integrated Post-secondary Education Data System (IPEDS). Invited to speak to the staff of the Education Committee for the Massachusetts House of Representatives about the validity and reliability of the Massachusetts Teacher Test (5/98-9/98).

School Districts

- Statistical Consultant, Lexington School for the Deaf.* Performed data analysis and interpretation of results of results; assisted with development of grant proposal to study mediated learning strategies and parent-child interactions (1/1/07-present).
- Statistical Consultant, District of Columbia Public Charter School Board.* Performed data analysis and interpretation of results of the Stanford 9 Achievement Test for all Charter Schools in the District of Columbia. Developed a summary report for the DCPCSB putting their results into a national context (8/99).
- Statistical Consultant, Naperville County Public School District.* Performed data analysis and interpretation of results of the TIMSS 1999 Benchmarking test for all schools in the Naperville County, IL (8/01-Present).

Higher Education Institutions

- Workshop Instructor, Suffolk University.* Taught a series of one-day workshops on the use of Microsoft Excel for Introductory, Intermediate, and Advanced level students (10/00-2/01).
- Survey Consultant, Boston College Dining Services.* Provided technical assistance related to survey design and layout. Created SPSS syntax files for analysis. Provided technical support in the interpretation of the findings (5/97-6/97).
- Survey Consultant, HealthQuest Project at Boston College.* Provided technical assistance related to survey design and layout. Created SPSS syntax files for analysis. Provided technical support in the interpretation of the findings (4/97-5/97).

Doctoral Dissertations

- Statistical Consultant, Martin Pierre.* Created SPSS syntax files for analysis. Provided technical support in the interpretation of the findings (4/01-9/01).
- Statistical Consultant, Ellen Keene.* Provided technical assistance related to survey design and layout. Created SPSS syntax files for analysis and assisted with interpretation of findings (4/00-9/00).
- Statistical Consultant, Maryanne Prevetti.* Created SPSS syntax files for analysis. Provided technical support in the interpretation of the findings (2/98-4/98).
